HUNG JURY SEEN IN M'CRAY TRIAL

Jurors Still Deadlocked This After-
noon, After Having Deliberated
For 24 Hours

JURYMEN CLOSELY GUARDED

Judge Chamberlin Announces That
he Will Give Them Plenty of Time
to Reach Decision

(By United Press)

Indianapolis, Ind., April 11—The jury in the trial of Gov. McCray was still deliberating behind locked doors afternoon today with no indication of a verdict being near at hand.

McCray is charged with embezzling \$155,000 from the state board of agriculture.

The jury had been out nearly 24 hours.

No intimation as to the number of ballots taken or how the vote stood was obtainable. Every precaution was taken by bailiffs in charge of the jury to keep any information from "leaking out."

The fact that the jury asked to retire last night was taken as an indication that there was a marked division of opinion among the jurymen.

Throughout the morning a bailiff stood on close guard and kept inquisitive persons at a respective distance from the jury room.

Newspaper men were expelled from a press room adjoining the jury room when it was found that the voices of the jurymen filtered through the partition as the argument waxed hot.

At noon the jury was taken out to lunch and Judge Chamberlin announced "that he would give the jury plenty of time to reach a verdict."

The judge planned to attend a base ball game at Washington park this afternoon.

The general impression was gaining ground that a hung jury will be the ultimate result.

The jury had been weighing the governor's fate for nearly eight hours when it asked to be permitted to retire shortly after 11 o'clock. The case was placed in the hands of the jury at 2:20 yesterday afternoon and there was a short intermission in the deliberations when the jury went out for supper and a walk yesterday evening.

Governor McCray left the court house shortly after the jury retired. Throughout the evening he waited at his home for word as to the action of the jury. He expressed complete confidence that the verdict would be for acquittal.

Hope for an acquittal grew among defense attorneys as Judge Chamberlain read his instructions to the jury yesterday afternoon. Judge Chamberlain told the jury the main issue to be settled was whether I. Newt Brown, former secretary treasurer of the state board of agriculture. Continued on Page Three

Noblesville, Ind., April 11—Fire early today destroyed the postoffice, the general store of Clyde Pettijohn and two other buildings at Hortonville near here.

Bucket brigades battled to check the flames and keep them from spreading to other buildings.

The fire is believed to have been started by sparks from a passing freight engine. The loss is covered by insurance.

Brazil, Ind., April 11—The Spagnardi Candy and Ice Cream store here was wrecked today with damage estimated at \$8,000.

The fire is believed to have been started by defective wiring. Fire walls prevented the blaze from spreading to adjoining buildings.

TEST IN COUNTY COMPLETED

The Rush county principals association was on an excursion today to Johnson county, where they were visiting the school of that county, as a part of the monthly meeting outlined for the county school heads.

The principals have been holding sessions each month and today was set aside to visit the schools around Franklin, as the schools there have supervised education under the direction of the Rockefeller institute.

The tests in this county were completed yesterday by the instructors sent here to conduct the tests, and which will serve as a check-up against the former test conducted last fall. Premier Poincare is said to consider the report a satisfactory technical solution but believes its adoption must be accompanied by political accords guaranteeing France support of the allies in case Germany defaults.

IS A DELEGATE TO G.O.P. CONVENTION

Mrs. Herbert Farrar, Formerly Char-
lotte Sleeth, One of Seven Wo-
men Elected in New York

ACTIVE POLITICAL WORKER

Former Rushville Woman, Leader in
10th Assembly District, is Elected
in Primary

Mrs. Herbert Farrar, formerly Miss Charlotte Sleeth of this city is one of seven women elected as delegates to the republican national convention from New York state, in the primary election held one week ago today, according to an article in the New York Herald-Tribune which has been received here.

Mrs. Farrar, who is known to her many friends here as "Sharley" Sleeth, is a sister of Miss Mary Sleeth, city librarian and the woman republican chairman in the sixth district, and Miss Nora Sleeth, county recorder.

The former Rushville girl, according to the New York newspaper, has been active in the lower East Side of New York City ever since women received the vote and recently replaced another woman as a leader in the 10th Assembly district.

Not many months ago Mrs. Farrar was instrumental in having Senator James E. Watson of this city address about one thousand New York republican women at a banquet in New York City. At that time, Senator Watson wrote here that Mrs. Farrar was very influential in New York state politics and had a large following.

Mrs. Farrar was interviewed by a Herald-Tribune reporter, who said he found her experiencing all the delight of one who has for the first time been paid the great political honor of a seat in the convention.

"I am so glad to be allowed to go", Mrs. Farrar is reported in the New York paper to have said. "I have just been running around in the snow all the afternoon, watching the vote. That was part of my job as leader of the Tenth Assembly District, but I couldn't help feeling a little personal thrill, to think I was being given the votes of my party for the responsible task of helping to select a Presidential candidate."

"I like Calvin Coolidge for the same reason that so many other people do, for the same reason that underlies the enthusiasm which has swept the country in his behalf—namely the feeling that because of his early environment, his education and ideals, he represents the steady, sturdy Americanism which is the core of our national life. The man himself is silent, but enough is known of his Continued on Page Two

LOCAL CHIEF AT FIRE PREVENTION CONGRESS

Joe Williamson Attends State Meet-
ing Which Goes on Record as
Favoring Advanced Legislation

TO HOLD OWNERS RESPONSIBLE

(By United Press)

Indianapolis, Ind., April 11—A fire prevention congress attended by more than 100 Indiana fire chiefs, mayors and other civic officials opened today in the Indianapolis Chamber of Commerce.

Unanimous approval was given to the proposal of Newman T. Miller, state fire marshal, for the enactment of legislation which would make the owner of a fire hazard responsible for loss to other property due to their carelessness.

According to the proposed legislation, a fire communicated to a building from a blaze originating in a fire hazard would be the fault of the owner of the fire hazard.

Joe Williamson, chief of the Rushville fire department, attended the congress held in Indianapolis today. It was said at the Rushville fire department headquarters.

The local fire chief attended a conference of about ten fire chiefs last Friday, in Indianapolis, to discuss fire prevention. They were from cities which have suffered heavy fire losses recently.

Good Desert Picture

Shicks, handsome and otherwise, sun-scorched Libyan Desert, glittering lights of London night and the fulfilled passions of wild youth 'neath the starry heavens of a night in Tripoli. This is the theme of the Fred Leroy Granville production that graces the screen of the Castle again today.

We have often wondered what shicks were really like, we have heard a lot of the night life of London, and still the question is, the desert as peaceful as it looks, or do the shifting sands that leave no record, cover the sins of those who seek romance under the tropical desert, moon? Mr. Granville has endeavored to bring to the American public, the true facts and has woven them into a story which he has called "Shifting Sands." Miss Peggy Hyland is to be seen in the stellar role of Barbara Thayer, the English girl.

HUNG JURY SEEN IN MCRAE CASE

Continued from Page One

ture, gave the \$155,000 of the board's money to McCray as a personal loan or as a deposit for the Discount and Deposit bank at Kentland.

Even though the records of the board of agriculture showed the money was for deposit in the Kentland bank, these records should not be thrown in the balance against the governor unless he had a hand in making the records, Judge Chamberlin told the jury.

The instructions were regarded as very favorable to the defense, and Governor McCray left the court room with a smile, apparently relieved that the long ordeal was nearing an end.

Rumors of an early verdict of acquittal were current about the courthouse throughout the afternoon and early evening, but as the hours wore on without the jury reporting, it was generally predicted that the jury would disagree.

In the closing argument just before the case went to the jury, Eph Luman, special prosecutor, made a dramatic and fiery appeal to the jury to convict McCray and "clear the state of Indiana of the blot on its name."

"In the century that has passed since Indiana entered the sisterhood of states not one governor had ever been impeached or indicted. In the gallery of our illustrious line of governors, only the picture of Warren G. McCray is turned to the wall," Luman said.

OFFICIAL CANVAS WILL BE NEEDED

Deneen is Leading McCormick by Such a Narrow Margin That Final Count Must be Awaited

DEFEAT OF SENATOR SEEN

Charges Made at Deneen Headquarters That Attempts Would be Made to Tamper With Returns

Chicago, April 11—An official canvas of the vote cast in the Illinois primary for Senator McCormick and former Governor Charles Deneen will be necessary to decide the winner of the Republican senatorial nomination, it was declared today by supporters of both candidates.

With 52 precincts missing, Deneen is leading McCormick by 3,450 votes. The count stood:

Deneen 353,742.
McCormick 350,292.

McCormick supporters have little hope of overcoming the lead on the strength of the unofficial count and plan to petition for an official canvas when the balance of the precincts are in. McCormick and Deneen have hired lawyers to represent them before the state canvassing board.

Charges were made by Deneen headquarters that attempts would be made to tamper with the returns. Deneen refused to give details except to say that word had reached him of such a plot. He warned his supporters to be on guard.

Deneen's managers claim he will show a majority of 5,000 or more when the count is completed.

McCormick's managers claim their man will show a majority of between 10,000 and 15,000 when the official canvass is made. They claim to have uncovered several errors favoring Deneen and profess to feel confident that enough other "errors" will be found to give McCormick the victory.

Local people who want to "listen in" and reply, must address their answers to station WHO, Des Moines.

TO FIX RESPONSIBILITY

Indianapolis, Ind., April 11—As the result of the possibility of mandamus suits by party candidates for the primary, the state board of election commissioners met today to determine if the U. S. postoffice department was responsible for neglect in delivering letters promptly to the office of the secretary of state.

Thou hast a mighty arm; strong is thy hand, and high is thy right hand. Justice and judgment are the habitation of thy throne; mercy and truth shall go before thy face—Psalms 89:13, 14.

Clean Money

People have a habit of calling it "filthy lucre", but really it is not so filthy, because Uncle Sam has a custom of washing his money with the precision and care that the fastidious housewife uses in doing her weekly washing.

Once upon a time the government destroyed all of the soiled and worn currency returned to the treasury for redemption, but those days are gone forever.

Now our bills get their regular baths and our money is much cleaner than it once was.

The \$1 bills, the passport of the great common people, most frequently get into the bath tub, but those of larger denomination also have to be cleansed.

The average life of a bill is four months, but there are cases on record where currency issued one day has been turned back, soiled and greasy, the following day for redemption.

Soiled or clean, we'll all take all we can earn, and some take more than they earn; others take some they never earn.

Rights to Be Defined

The District of Columbia grand jury has indicted Mr. Sinclair for refusing to answer questions of the Senate investigation committee. The courts will now try the issue, but final settlement will not be reached until the Supreme Court of the United States has passed on it. Meanwhile public interest in the oil leases will probably have subsided. But the principle involved in the Sinclair trial is far more important than the present oil controversy. Ever since the Constitution was adopted it has been a moot question how far the authority of Congressional investigating committees extends. In these days of almost constant succession of inquiries it is highly important that the rights of citizens under interrogation shall be clearly defined.

Alaska Development

The development of Alaska, a subject uppermost in the mind of President Harding when he died, proceeds without interruption. An air mail route from the southern coast into the interior is being plotted that will reduce to hours a journey that formerly took as many days. A party is now in the northern part of Alaska ready to start a summer exploration of that little known section, and determine the oil and other resources that it contains. Bookings for summer tourist travel on the Alaska railroad exceed all previous records.

Hunt's Washington Letter

BY HARRY B. HUNT
NEA Service Staff Writer

WASHINGTON, D. C.,—Friends of Joe Robinson, U. S. senator from Arkansas and Democratic floor leader in the upper house, do not take kindly to George Harvey's suggestion that Robinson is the Democratic party's best bet for president.

"Now what does Harvey want to go and do that for? they lament. Robinson is too good a man to be cursed with Harvey's backing."

From which it may be inferred correctly, that from the Democratic view every knock by the late ambassador to the Court of St. James' will be considered a boost and every boost a knock.

Harvey, who as a Democrat was responsible for first focusing the spotlight on Woodrow Wilson, but who in 1920 backed Harding and was made ambassador to Great Britain, is keeping Republicans as well as Democrats guessing as to which political bed he will choose to nest in this year. He now says he's "independent."

Democrats generally will resent any attempt by Harvey to adopt their party as his choice. Bitterness against him over the circumstances of his split with Wilson, and his later desertion to the G. O. P. camp, will make him an unwelcome guest in any Democratic headquarters. There are indications, too, that Republican organization leaders do not approve George's free-and-easy regard for party ties and hesitate to take him into their sanctum sanctorum.

But the concern of both old party groups may be beside the mark. Maybe George, as an "independent," is getting ready to lend his advice and assistance to the projected "third party." If he should, there are a lot of "leaders" in both old parties who would leave a sigh of relief and thanksgiving. For neither outfit knows what to do with George.

SINCE "George" made the suggestion, however, there might be wilder guesses than Robinson as to the Democratic nominee. While not a probability, he is clearly within the field of "possibilities."

A rather stocky man, is Robinson, a bit stoop-shouldered from much sitting at desks, with a waist line hinting at the need for a bit more exercise, thinning brown hair, a touch of color in his cheeks, a strong nose and jaw and a general appearance of a hard-headedness.

He has both physical and mental force and he speaks only when he has something to say. That alone marks him as a man apart in the Senate.

Robinson is 52. Within a period of two weeks, back in 1913, he was congressman, governor and United States senator. He resigned from the House Jan. 13, 1913, qualified as governor on Jan. 16, and on Jan. 23 was elected to the Senate to fill a vacancy that had developed following his election as governor.

Whether Robinson is to head his party's ticket or not, he will play a leading role in shaping the platform on which the Democratic candidate must stand.

WASHINGTON is "growing up" as a world capital. One by one it is discarding small-town ways and "provincialisms" and putting on the garb and manners of a sophisticated world center.

Latest in this line is the definite drift here toward the adoption of the "Continental Sunday."

Sunday in Washington is no longer a time for mere church-going, or even a day devoted to quiet recreations. It now has a definite place on the social calendar, and teas, musicales and even receptions are regularly scheduled on Sundays. Washington's growing importance as a diplomatic center, and the growth of the foreign colony here are among the chief causes of the change.

The Farmer's Psychology

A recent editorial in The Republican, entitled Concentrated Thought, has much valuable truth in it regarding the psychology that should govern the farmer's actions; but its application in this particular editorial is—either intentionally or otherwise—misleading.

"Dr. Conie's" power of mind over matter, is not Dr. Conie's doctrine at all, but has been preached by leading psychologists throughout the civilized world for many years. One day the Associated Press—which is still living in the Dark Ages—interviewed Dr. Conie, and forthwith sent out what "it" thought was "something new"; and as a result every little two-by-four in the country is evaporating "Dr. Conie."

The farmer is not thinking "destructive thought," except for those forces which have been a menace to his business for half a century; and the "gloom" he is spreading is for Board of Trade gamblers, wherever and whoever they may be. As for choking the "loud-mouthed political agitators," this idea is an insult to the intelligence of Rush County farmers; since there is no better way to choke error than to give it publicity. Back of Popes, Presidents, Courts, Congresses and Legislatures is Public Opinion, and back of public opinion is the open forum of free discussion. No man has a copyright on TRUTH, and the open minded man welcomes a well-ordered logical discussion.

The large city daily paper has not yet awakened to the fact that the farmer means business in this new move he has taken. Reader's of Mr. Bell's "Reply to Wheat Pool Critics" in the Republican for Jan. 29 were well pleased with his manner of handling his subject. Important, and unanswerable, however, as were his arguments, it would have taken half of what the farmers lost on their wheat crop of 1923 to have gained space for this article in the large city daily. The announcement of the Wheat Pool Organization that appeared in worthy type, in The Republican, as being one of the most important events of the year, got a two-inch item in Ten Point type on the eleventh page of the city dailies. Suppression is the method employed to keep the producer and consumer apart. How much money do you suppose it would have required to have sent out Howard Ewbanks' contribution in the Republican for March 11th to the readers reached by the Associated Press? There are two paragraphs in this article regarding the total loss to the farmers of Rush County on their 1923 wheat crop, that if given proper publicity, would work a revolution in the sales machinery of the nation.

The editorial referred to in the beginning of this discussion goes on to state that the farmer's habit of spreading gloom over his occupation has hurt his credit in the bank. In answer to this last statement, it is

not necessary to state the case in full. What is known as Frozen Credits has hurt the farmer's standing in the bank. There is no better way of defining Frozen Credits than by giving an example: Mr. Farmer goes to his banker for a loan. The banker, holding trust funds, and being amenable to the laws of the state in which he operates, asks—out of a perfect right to do so—what said farmer intends to do with the money he is borrowing. The farmer tells him that he wishes to pay the interest on a previous loan! The farmer's intentions are entirely lawful and he may have "Dr. Conie" down pat, but something in that announcement send an Arctic chill down the banker's spine. THIS THING IS FROZEN CREDIT. The farmer goes on to tell his banker that the only part of his investment that paid six percent or seven percent or eight percent, as the case may be, was "the mortgage"—AND IT HAD TO!

Every Rush County Farmer knows that these things are true, yet he plows and plods on; because he feels that one lost step or one false move would be his undoing forever. It is almost time for Board of Trade to send out its spring announcement that "Times are Looking Better." This will be followed by a long coo-coo-coo-coo on THRIFT, and after that the farmer will be expected to fairly sweat dollars. There is no objection to thrift of the right kind; but much of our teaching of so called thrift is the sad wail of the lost souls of skinflint misers who were dropped out of the Devil's hand-bag on the way to Fiddler's Green, and are now wandering about in the ether surrounding this old globe screaming their platitudes into a sort of spiritual radio for the benefit of those farmers who sold their wheat for 90c per bushel.

American League Race

HENRY L. FARRELL
(United Press Sports Editor)

New York, April 11—Just for the reason that the New York Yankees are expected by the majority of the baseball critics to be set for another stroll to the championship, the American League pennant race has the possibility of a tremendous sensation that would develop if the Yankees should not live up to form.

It is more or less accepted if the Giants should falter in the National League one of two contending teams would win the pennant, but in the American League it would become almost an open contest if the Yankees should happen to stumble and fall by the wayside.

On the assumption that baseball is too uncertain to accept the position of the Yankees as impregnable, five or six teams stand for the pennant in the American League.

Since 1914, when the Boston Braves upset all calculations in the National League by trailing behind the pack until July and then stepping out and winning the pennant, a critic can give any team a pennant chance without risking his hide before the pistol of an assassin.

Four new managers have been appointed in the American League since the season closed last fall, one team has been completely reorganized, one team has been tremendously strengthened, and one has been improved. Lee Fohl, with the Boston Red Sox, Frank Chance, with Chicago White Sox; Buck Harris, with the Washington Senators, and George Sisler, with the St. Louis Browns, are the new pilots. Because they have new managers, who may introduce new policies and whose leadership may exert some kind of a new inspiration these clubs cannot be figured on past performances.

The Boston Red Sox have been reorganized from top to bottom with new owners and a new manager. The club has been strengthened by the addition of Steve O'Neil, one of the great catchers; by Wambegans, a fine second baseman; Bobby Veach, slugging outfielder, and by Dudley Lee, a rookie shortstop, who has been hailed as a sensation by veteran baseball scouts.

By the use of substantial cash, Connie Mack has added to the Philadelphia Athletics Strand and Simmons, two highly-touted young outfielders, and Max Bishop, a promising second baseman from the fine Baltimore club. For two years Mack

hasn't needed much to be "up there" and perhaps these three players will be needed "much".

The Cleveland Indians, at a sacrifice, succeeded in getting George Burns back from Boston, a position that has been weak since Doc Johnston's legs went back on him.

St. Louis is to gamble on the success that Manager George Sisler has in his attempt to play first base again. With a Sisler in anything approaching old-time form, the Browns are a pennant contender; without him they are in a battle for the first division.

As it will be observed, the American League clubs, with the exception of the Yankees, are all uncertain quantities. The Yankees are certain only by the exercise of an opinion that a piece of mechanism, almost perfect on a baseball blue-print, will function as such when it is put into action and that here are no worn parts in the machine that are likely to give way under the strain of hard work.

INVITATION TRACK MEET ON SATURDAY

Moscow High School Will be Host for Five Other Teams in Cinder Path Contests

COUNTY MEET A WEEK AWAY

Moscow high school is conducting an invitation track and field meet on the newly constructed Moscow track tomorrow. It is planned to start the meet at one o'clock and run through all of the ten events on the program in the afternoon. The meet should be a splendid practice for the county track meet, coming the following week, and will give an opportunity of sizing up the relative strength of the county teams.

The schools entered in the Moscow meet are Raleigh, Carthage, Manilla, Webb, Waldron and Moscow. The team winning the meet will receive a trophy cup immediately following the events. Raleigh is expected to be especially strong in the field events. Carthage is an unknown factor but they have a large squad of good men to pick from.

Moscow is stronger on the track in the dashes and runs while Manilla, Waldron and Webb should all have teams high in the running. A very closely contested meet is almost assured and a large crowd is anticipated.

TELLS HOW HIS WIFE SUFFERED FOR 3 YEARS

Stomach Trouble And Nervousness Now Gone And Mrs. Jester is Happy and Smiling.

"Yes, sir, the credit for restoring my wife's health goes to Tanlac and I'm mighty glad to say so, for it does my heart good to see her so cheerful, happy and contented," enthusiastically states O. E. Jester, R. F. D. "O" of P. O. Box 638, Indianapolis, Ind., well-known C. I. & W. Railroad freight claim adjuster.

"My wife suffered from stomach trouble three years and her appetite and strength finally dwindled down to near nothing. The lightest meal caused gas, heartburn and palpitation

and her nerves were so tightly strung she could neither sleep well or stand any confusion. Dizziness, headaches and biliousness further aggravated her, and she was miserably weak.

"Since Tanlac relieved her ailments thoroughly, my wife eats, sleeps and feels like a schoolgirl. She has gained weight until she hardly looks like the same person and even goes through a hard day's work at home joyful and smiling."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

SENATE TO GO INTO WHEELER CHARGES

Until Committee is Named, Line of Inquiry to be Followed Can't be Fully Determined

DAUGHERTY PROBE TO GO ON

(By United Press)

Washington, April 11.—The senate investigation of charges against Senator Wheeler, Montana, will swing into action immediately after the appointment of the special committee today by Senator Cummins, presiding officer of the senate.

Until the committee has been named the line of inquiry cannot be fully determined but Wheeler's friends said it must be pushed with all possible speed. Any witnesses suggested by Wheeler will be called, it is understood.

Wheeler will ask that John L. Slatery, United States district attorney for Montana, who secured his indictment, and N. T. Lease, former mayor of Great Falls, Mont., and foreman of the grand jury which returned the bill, be called to testify. It is also possible that he will insist that Judge Charles N. Pray be summoned.

Meanwhile the Daugherty investigating committee will conduct a collateral inquiry into Wheeler's charge that he is the victim of a "frame up." Wheeler will continue to serve as "prosecutor" on the committee, Chairman Brookhart said.

PRE-EASTER SERVICES

Pre-Easter services which have been in progress at the Fairview Christian church all week, will culminate Sunday, the last day, with an all day meeting and a pitch-in dinner at the Fairview school building Sunday noon. The regular pastor, the Rev. W. H. Law, who has been in charge will preach twice Sunday, and there will be special musical numbers.

There will be a stated meeting of Rushville council No. 41 at the Masonic temple Monday evening followed by work in Chapter degrees.

Now read this letter of thanks from Mr. Kane. It speaks for itself. Remember, it is because Kellogg's Bran is ALL bran that it was so effective in his case—just as it has been in thousands of others. Only ALL bran can produce 100 per cent results.

My dear friend:

Imagine a young man weighing 165 pounds in the course of a few months parked in bed, a weakling weighing 94 pounds. An elderly lady whom I knew since I was a kid paid me what she thought was a last visit. Upon being told of my plight she immediately mentioned your product for such an ailment. Maybe some of us didn't look upon her views very lightly . . . it was to laugh!

My dear friend, I am still laughing . . . not at your product, but because I am able to. I am telling you and the world at large, "Eat Kellogg's Krumbled Bran!" It should be called "Constipation's worst enemy." I owe you my heartfelt gratitude. I can talk, and whenever the opportunity presents itself, my mouth is always full of bran—Kellogg's Krumbled. Wishing you countless days of progress, I am

Yours for success,

Fake Stock Salesmen Arouse Ire of Citizens

Clinton, Ind., April 11—Renewal of activity of stock salesmen near here has aroused the indignation of many citizens.

The salesmen, according to some estimates, have "bled" the people in this vicinity for about a million dollars for investments which later turned out to be not quite all the salesmen pictured them to be.

"This town and the surrounding towns have certainly been bled plenty," declared Anton Marietta. "It's a crime for these fellows to be trying to take more money out of this community under present conditions."

FLINGS GAUNTLET FOR "HOME RULE"

John J. Brown Willing to Debate Publicly With Candidates Question of Home Rule for Taxation

FAKER IN "HOME RULE"

Thinks it About Time Distortion of Truth by Candidates be Stopped In Attacks on Tax Board

(By United Press)

Indianapolis, Ind., April 11—Declaring the public is being betrayed by gubernatorial candidates of both parties who are seeking to confuse the popular mind for the sake of votes.

John J. Brown, chairman of the State board of tax commissioners today flung down the gauntlet to candidates championing "home rule" in taxation, and challenged any or all of them to public debate publicly on the question.

"I would be willing to debate publicly with any candidate the question of home rule for taxation," Brown said. "Either party—no difference to me."

"It's about time however, that the distortion of the truth by candidates be stopped," he declared with heat. "Some of them are attacking the State tax board and advocating a change to what they call 'home rule.' There is a faker in the 'home rule' which they so luringly speak of. If the public ever had home rule in taxation matters they have it now."

"The effect of home rule as advocated by some of the seekers for public office means the taking away from the tax-payers the right of appeal they now have. This would prevent any control over local taxing and money spending authorities."

"Why, we can't alter a bond issue, change a levy or even function unless taxpayers of the local unit appeal the matter to the board. Only then, upon their petition, does the board acquire jurisdiction over local tax matters."

"What protection would local people have without some right of appeal? Unscrupulous officials would plunder the public funds graft and corruption would abound, and the public debt would soar to greater heights."

Mrs. Harding For Governor

SHORTAGE FEARED IN TEACHING RANKS

Organized Effort is Being Made to Recruit Prospects to Conform With 1923 Laws

A COLLEGE COURSE NEEDED

Indianapolis, Ind., April 11—This is teacher recruiting week in Indiana.

The State department of public instruction, anticipating a serious shortage of school teachers unless an organized effort is made to get more of them, has designated this week for the recruiting of the ranks to normal proportions.

The Indianapolis Chamber of Commerce, the Indiana State Teachers' association and Indiana university are cooperating in the movement.

The 1923 teachers' license law is one of the causes for the anticipated shortage, officials said.

High school teachers must have three years of previous training under the 1923 law, instead of the former standard of two years, officials pointed out.

From 4,000 to 5,000 teachers in Indiana are without licenses. The total number of teachers is approximately 22,000. More stringent requirements for licenses is cited for the dropping off in the number of high school graduates entering the teaching profession.

"We had to break up housekeeping because of my wife's stomach trouble. No medicine did her any good for more than a few hours. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. Why Girls

Are Not Prettier — why women grow old

BY EDNA WALLACE HOPPER

I was a plain girl, but I made myself a famous beauty. I have reached a grandmother's age, but I keep my youthful looks. Countless young girls covet my hair and my complexion.

No ordinary beauty help ever did, or ever will, bring such results to women. I searched the world for the best helps in existence. I spent a fortune to obtain them. To them I owe all that beauty and perennial youth have meant in my career.

Now I have placed these identical helps at your call. To girls they mean multiplied beauty, to women continued youth. I urge you to let them bring to you what they brought to me.

The Great Mistakes

Millions of women seeking beauty and youth use unscientific helps. Now I bring you the best helps in existence.

Clay is a beauty essential. No girl can look her best without it, no woman keep her youth. But not the crude and muddy clays so many still employ. A super-clay has been perfected by 20 years of scientific study. It is white, refined and dairy. It is ten times more effective than the ordinary clays.

I call this my White Youth Clay. Many women, with one use, seem to drop ten years. It brings a rosy clear complexion. It removes the causes of blackheads and blemishes. It firms the skin, combats all lines and wrinkles. My White Youth Clay will amaze and delight you. I urge you to see what it does. The cost is 50 cents and \$1.

Scientific Creams

Women use creams which no great expert in the world could sanction. I made a world-wide search to get the best creams in existence.

One is my Youth Cream—a cold

cream. It contains products of both lemon and strawberry. Also all the best that science knows to soften, feed and foster the skin texture.

I use it after the clay. Also as a night cream, also daytimes as a powder base. Never is my skin without it. I want you to learn what Youth Cream means to you. It costs only 50 cents.

My Facial Youth is a liquid cleanser which I found in France. Great beauty experts the world over now employ it. It contains no animal, no vegetable fat. The skin cannot absorb it. But it cleans to the depths and removes from the skin all the dirt and refuse which nothing else can reach.

You will know for the first time what a clean skin means when you apply my Facial Youth. The cost is 75 cents.

Hair You Marvel At

Millions marvel at my luxuriant hair. It is thick and lustrous—finer far than 40 years ago. Falling hair, dandruff and gray hair have never come to me.

This is also due to France. She perfected my Hair Youth. I apply it daily with an eye dropper, directly to the scalp. It does not muss the hair. It cleans the scalp, stimulates and fertilizes. Then the hair roots flourish and bring the results I show.

If you wish like hair, use this method—the best that science knows. My Hair Youth costs 50 cents and \$1 with eye dropper.

All druggists and toilet counters supply these preparations. Nothing else in all the world can bring you like results. Go try them. Let them bring you what they brought to me. Edna Wallace Hopper, 536 Lake Shore Drive, Chicago.

IN BRUTAL CHILD MURDER

Sophie Cupek, 14 (shown at lower left, started out to deliver milk in the neighborhood of Chicopee, Mass., Stanley Zalesky, 17, is alleged to have enticed her into his home and, later, to have clubbed her to death in the cellar, wrapped her body in a carpet and dumped it in the Connecticut river. Police say he has signed a confession. Above police are shown dragging the river for the body.

HEARING TO BEGIN ON MUSCLE SHOALS

Senate Agriculture Committee Decides to Start Sessions to Consider Legislation April 18

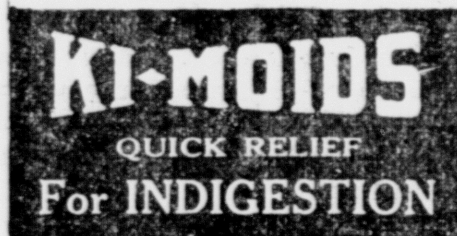

FORD PLAN IS IN DOUBT

Washington April 11—Voting down the supporters of the Ford offer who sought immediate action, the senate agriculture committee has decided to begin hearings on Muscle Shoals legislation on April 16.

Senator Harrison, Democrat, Mississippi, in an effort to rush through the proposed Ford lease, attempted to pledge the committee to complete its hearings April 23, but he was voted down.

The committee's action came as a complete surprise and was regarded as indicating the Ford offer may not be reported out.

Western progressive Republicans who had been counted upon to vote for Ford because of the cheap farm fertilizer agreement, deserted the cause almost to a man. Senator Ladd, North Dakota, was the only Republican to support Harrison's move, while one Democrat—Ransdell, Louisiana—voted against it.

PROPECTS GOOD FOR HONEY FLOW

Larger Clover Crop is Expected and Bees Having Wintered in Fine Shape, are Cause for Hopes

COLONY EXAMINATION URGED

About Thirty Pounds of Diluted Honey Nectar Should be in Each Hive For Proper Nurture

Indianapolis, Ind., April 11—Never before have bee-keepers in Indiana been so enthusiastic over prospects for a large honey flow, C. O. Yost, State apiarist, declared today.

Their hope has a real foundation in present conditions of the bees and the clover crop, Yost said. A large clover crop is expected, and bees have wintered in fine shape.

Preparations should be made immediately by all owners of colonies to insure a maximum harvest, he said.

At this time, Yost said, examination of all colonies should be made to see that the bees have plenty of food. About 25 to 30 pounds of diluted honey nectar or sugar syrup should be in each hive for proper nurture of the bees.

Where the following conditions are found to prevail, the owner may be sure of a good profit, crop conditions being normal:

- 1—Free from disease
- 2—First class queen.
- 3—From 15,000 to 20,000 young bees that haven't worn out their energy.

4—Abundance of stores to take care of bees through winter and for brood rearing in spring.

5—Winter protection in colony: Wrapping or packing.

"Practically all spring management can be eliminated by fall care," Yost said.

BEGIN TO SOW OATS

Bloomington, Ind., April 11—Monroe county farmers are beginning to sow oats. With warmer weather here, the ground is beginning to dry up to such an extent that a number of farmers have started to put in their crop. Acreage to be sown this year will probably be about the same as last year, 5,818 acres, according to C. W. Hastings, president of the county farm bureau.

INTERURBAN HITS MACHINE

Elkhart, Ind., April 10—Mrs. Milo Myers was in a serious condition in a hospital here today with injuries received in an auto accident in which her husband was killed late yesterday. Their auto was struck and demolished by an interurban car.

"My Rheumatism is gone —"

"THERE are thousands of you men and women, just like I once was—slaves to rheumatism, muscle pains, joint pains, and horrible stiffness. I had the wrong idea about rheumatism for years. I didn't realize that increasing blood-cells had the effect of completely knocking out rheumatic impurities from the system. That is why I began using S. S. S. Today I have the strength I used to have years ago! I don't use my crutches any more." S. S. S. makes people talk about themselves the way it builds up their strength. Start S. S. S. today for that rheumatism. You'll feel the difference shortly.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

MOVIES

Shifting Sands

When asked to explain what he meant by shifting sands, Mr. Granville said: "Every few hours the sand shifted and we would no more than get a scene photographed than the entire locale would be blown away."

This is perhaps where Mr. Granville got the title for the picture he brought to America. He has called it "Shifting Sands," a real story of the Libyan Desert with real Arabs, chiefs and plenty of sand. The Castle theatre will show this production for the first time today and continuing Friday.

Pola Negri at Princess

Nothing shadowy about the reception accorded Pola Negri's Paramount picture, "Shadows of Paris," a Herbert Brenon production, which was shown for the first time at the Princess theatre last night and will be shown again today.

It's a story by the French authors Andre Picard and Francis Carco. Picard, it will be remembered, also wrote "Kiki." Miss Negri has the role of Claire, leader of a band of Apaches. She marries a prominent French diplomat, using her newly acquired social position to advantage by betraying her wealthy friends into the hands of her underworld associates. She often visits her old haunts and during one of these trips is recognized, her husband being informed. He continues along in silence for some time, however, and when Claire finally does confess, he tells her that he has been aware of it all the time and was just waiting for the confession from her own lips, which he knew was sure to come.

Charles de Roche is cast as Fernand, Claire's Apache lover, who is killed when discovered alone with Claire in her rooms. Huntly Gordon plays Raoul, Claire's husband. Adolphe Menjou is the secretary, who betrays Fernand to Raoul.

Muncie—Movie cameras will record the progress of the search when kiddies start their annual Easter egg hunt here.

HUNG JURY SEEN IN M'CRAY TRIAL

Jurors Still Deadlocked This Afternoon, After Having Deliberated For 24 Hours

JURYMEN CLOSELY GUARDED

Judge Chamberlin Announces That he Will Give Them Plenty of Time to Reach Decision

(By United Press)

Indianapolis, Ind., April 11—The jury in the trial of Gov. McCray was still deliberating behind locked doors afternoon today with no indication of a verdict being near at hand.

McCray is charged with embezzling \$355,000 from the state board of agriculture.

The jury had been out nearly 24 hours.

No intimation as to the number of ballots taken or how the vote stood was obtainable. Every precaution was taken by bailiffs in charge of the jury to keep any information from "leaking out."

The fact that the jury asked to retire last night was taken as an indication that there was a marked division of opinion among the jurymen.

Throughout the morning a bailiff stood on close guard and kept inquisitive persons at a respectful distance from the jury room.

Newspaper men were expelled from a press room adjoining the jury room when it was found that the voices of the jurymen, filtered through the partition as the argument waxed hot.

At noon the jury was taken out to lunch and Judge Chamberlin announced "that he would give the jury plenty of time to reach a verdict."

The judge planned to attend a base ball game at Washington park this afternoon.

The general impression was gaining ground that a hung jury will be the ultimate result.

The jury had been weighing the governor's fate for nearly eight hours when it asked to be permitted to retire shortly after 11 o'clock. The case was placed in the hands of the jury at 2:20 yesterday afternoon and there was a short intermission in the deliberations when the jury went out for supper and a walk yesterday evening.

Governor McCray left the court house shortly after the jury retired. Throughout the evening he waited at his home for word as to the action of the jury. He expressed complete confidence that the verdict would be for acquittal.

Hope for an acquittal grew among defense attorneys as Judge Chamberlain read his instructions to the jury yesterday afternoon. Judge Chamberlain told the jury the main issue to be settled was whether 1. Newt Brown, former secretary (treasurer of the state board of agriculture. Continued on Page Three

\$8,000 FIRE LOSS AT BRAZIL

(By United Press)

Noblesville, Ind., April 11—Fire early today destroyed the postoffice, the general store of Clyde Pettijohn and two other buildings at Hortonville near here.

Bucket brigades battled to check the flames and keep them from spreading to other buildings.

The fire is believed to have been started by sparks from a passing freight engine. The loss is covered by insurance.

Brazil, Ind., April 11—The Spagnardi Candy and Ice Cream store here was wrecked today with damage estimated at \$8,000.

The fire is believed to have been started by defective wiring. Fire walls prevented the blaze from spreading to adjoining buildings.

IS A DELEGATE TO G.O.P. CONVENTION

Mrs. Herbert Farrar, Formerly Charlotte Sleeth, One of Seven Women Elected in New York

ACTIVE POLITICAL WORKER

Former Rushville Woman, Leader in 10th Assembly District, is Elected in Primary

Mrs. Herbert Farrar, formerly Miss Charlotte Sleeth of this city is one of seven women elected as delegates to the republican national convention from New York state, in the primary election held one week ago today, according to an article in the New York Herald-Tribune which has been received here.

Mrs. Farrar, who is known to her many friends here as "Sharley" Sleeth, is a sister of Miss Mary Sleeth, city librarian and the woman republican chairman in the sixth district, and Miss Nora Sleeth, county recorder.

The former Rushville girl, according to the New York newspaper, has been active in the lower East Side of New York City ever since women received the vote and recently replaced another woman as a leader in the 10th Assembly district.

Not many months ago Mrs. Farrar was instrumental in having Senator James E. Watson of this city address about one thousand New York republican women at a banquet in New York City. At that time, Senator Watson wrote here that Mrs. Farrar was very influential in New York state politics and had a large following.

Mrs. Farrar was interviewed by a Herald-Tribune reporter, who said he found her experiencing all the delight of one who has for the first time been paid the great political honor of a seat in the convention.

"I am so glad to be allowed to go", Mrs. Farrar is reported in the New York paper to have said. "I have just been running around in the snow all the afternoon, watching the vote. That was part of my job as leader of the Tenth Assembly District, but I couldn't help feeling a little personal thrill, to think I was being given the votes of my party for the responsible task of helping to select a Presidential candidate."

"I like Calvin Coolidge for the same reason that so many other people do, for the same reason that underlies the enthusiasm which has swept the country in his behalf—namely the feeling that because of his early environment, his education and ideals, he represents the steady, sturdy Americanism which is the core of our national life. The man himself is silent, but enough is known of his Continued on Page Two

LOCAL CHIEF AT FIRE PREVENTION CONGRESS

Joe Williamson Attends State Meeting Which Goes on Record as Favoring Advanced Legislation

TO HOLD OWNERS RESPONSIBLE

(By United Press)

Indianapolis, Ind., April 11—A fire prevention congress attended by more than 100 Indiana fire chiefs, mayors and other civic officials opened today in the Indianapolis Chamber of Commerce.

Unanimous approval was given to the proposal of Newman T. Miller, state fire marshal, for the enactment of legislation which would make the owner of a fire hazard responsible for loss to other property due to their carelessness.

According to the proposed legislation, a fire communicated to a building from a blaze originating in a fire hazard would be the fault of the owner of the fire hazard.

Joe Williamson, chief of the Rushville fire department, attended the congress held in Indianapolis today. It was said at the Rushville fire department headquarters.

The local fire chief attended a conference of about ten fire chiefs last Friday, in Indianapolis, to discuss fire prevention. They were from cities which have suffered heavy fire losses recently.

Good Desert Picture

Shicks, handsome and otherwise, sun-scorched Libyan Desert, glittering lights of London night and the fulfilled passions of wild youth 'neath the starry heavens of a night in Tripoli. This is the theme of the Fred Leroy Granville production that graces the screen of the Castle again today.

We have often wondered what shicks were really like, we have heard a lot of the night life of London, and still the question, is the desert as peaceful as it looks, or do the shifting sands that leave no record, cover the sins of those who seek romance under the tropical desert, moon? Mr. Granville has endeavored to bring to the American public, the true facts and has woven them into a story which he has called "Shifting Sands." Miss Peggy Hyland is to be seen in the stellar role of Barbara Thayer, the English girl.

HUNG JURY SEEN IN MC'CRAY CASE

Continued from Page One

ture, gave the \$155,000 of the board's money to McCray as a personal loan or as a deposit for the Discount and Deposit bank at Kentland.

Even though the records of the board of agriculture showed the money was for deposit in the Kentland bank, these records should not be thrown in the balance against the governor unless he had a hand in making the records, Judge Chamberlain told the jury.

The instructions were regarded as very favorable to the defense, and Governor McCray left the court room with a smile, apparently relieved that the long ordeal was nearing an end.

Rumors of an early verdict of acquittal were current about the courthouse throughout the afternoon and early evening, but as the hours wore on without the jury reporting, it was generally predicted that the jury would disagree.

In the closing argument just before the case went to the jury, Eph Luman, special prosecutor, made a dramatic and fiery appeal to the jury to convict McCray and "clear the state of Indiana of the blot on its name."

"In the century that has passed since Indiana entered the sisterhood of states not one governor had ever been impeached or indicted. In the gallery of our illustrious line of governors, only the picture of Warren G. McCray is turned to the wall," Luman said.

OFFICIAL CANVAS WILL BE NEEDED

Deneen is Leading McCormick by Such a Narrow Margin That Final Count Must be Awaited

DEFEAT OF SENATOR SEEN

Charges Made at Deneen Headquarters That Attempts Would be Made to Tamper With Returns

Chicago, April 11—An official canvass of the vote cast in the Illinois primary for Senator McCormick and former Governor Charles Deneen will be necessary to decide the winner of the Republican senatorial nomination, it was declared today by supporters of both candidates.

With 52 precincts missing, Deneen is leading McCormick by 3,450 votes. The count stood:

Deneen 353,742.
McCormick 350,292.

McCormick supporters have little hope of overcoming the lead on the strength of the unofficial count and plan to petition for an official canvass when the balance of the precincts are in. McCormick and Deneen have hired lawyers to represent them before the state canvassing board.

Charges were made by Deneen headquarters that attempts would be made to tamper with the returns. Deneen refused to give details except to say that word had reached him of such a plot. He warned his supporters to be on guard.

Deneen's managers claim he will show a majority of 5,000 or more when the count is completed.

McCormick's managers claim their man will show a majority of between 10,000 and 15,000 when the official canvass is made. They claim to have uncovered several errors favoring Deneen and profess to feel confident that enough other "errors" will be found to give McCormick the victory.

Local people who want to "listen in" and reply, must address their answers to station WHO, Des Moines.

TO FIX RESPONSIBILITY

Indianapolis, Ind., April 11—As the result of the possibility of mandamus suits by party candidates for the primary, the state board of election commissioners met today to determine if the U. S. postoffice department was responsible for neglect in delivering letters promptly to the office of the secretary of state.

Clean Money

People have a habit of calling it "filthy here", but really it is not so filthy, because Uncle Sam has a custom of washing his money with the precision and care that the fastidious housewife uses in doing her weekly washing.

Once upon a time the government destroyed all of the soiled and worn currency returned to the treasury for redemption, but those days are gone forever.

Now our bills get their regular baths and our money is much cleaner than it once was.

The \$1 bills, the passport of the great common people, most frequently get into the bath tub, but those of larger denomination also have to be cleansed.

The average life of a bill is four-ten months, but there are cases on record where currency issued one day has been turned back, soiled and greasy, the following day for redemption.

Soiled or clean, we'll all take all we can earn, and some take more than they earn; others take some they never earn.

Rights to Be Defined

The District of Columbia grand jury has indicted Mr. Sinclair for refusing to answer questions of the Senate investigation committee. The courts will now try the issue, but final settlement will not be reached until the Supreme Court of the United States has passed on it. Meanwhile public interest in the oil leases will probably have subsided. But the principle involved in the Sinclair trial is far more important than the present oil controversy. Ever since the Constitution was adopted it has been a moot question how far the authority of Congressional investigating committees extends. In these days of almost constant succession of inquiries it is highly important that the rights of citizens under interrogation shall be clearly defined.

Alaska Development

The development of Alaska, a subject uppermost in the mind of President Harding when he died, proceeds without interruption. An air mail route from the southern coast into the interior is being plotted that will reduce to hours a journey that formerly took as many days. A party is now in the northern part of Alaska ready to start a summer's exploration of that little known section, and determine the oil and other resources that it contains. Bookings for summer tourist travel on the Alaska railroad exceed all previous records.

Hunt's Washington Letter

BY HARRY B. HUNT
NEA Service Staff Writer

WASHINGTON, D. C., April 11.—Friends of Joe Robinson, U. S. senator from Arkansas and a Democratic floor leader in the upper house, do not take kindly to George Harvey's suggestion that Robinson visit the Democratic party's best shot for president.

"Now what does Harvey want to go and do that for?" they lament, "Robinson is too good a Democrat to be cursed with Harvey's backings."

From which it may be inferred correctly that if from the Democratic view every knock by the late ambassador to the Court of St. James will be considered a boost and every boost a knock.

Harvey, who as a Democrat was responsible for first focusing the spotlight on Woodrow Wilson, but who in 1920 backed Harding and was made ambassador to Great Britain, is keeping Republicans as well as Democrats guessing as to which political bed he will choose to nest in this year. He now says his "independent."

Democrats generally will resent any attempt by Harvey to adopt their party as his choice. Bitterness against him over the circumstances of his split with Wilson and his later desertion to the G. O. P. camp, will make him an unwelcome guest in any Democratic headquarters. There are indications, too, that Republican organization leaders do not approve George's free-and-easy regard for party ties and hesitate to take him into their sanctum sanctorum.

But the concern of both old party groups may be beside the mark.

Maybe George, as an "independent," is getting ready to lend his advice and assistance to the projected "third party." If he should, there are a lot of "leaders" in both old parties who would heave a sigh of relief and "thanksgiving." For neither outfit knows what to do with George.

SINCE George made the suggestion, however, there might be wilder guesses than Robinson as to the Democratic nominee. While not a probability, he is clearly within the field of "possibilities."

A rather stocky man, Robinson, 54, is stooped-shouldered from much sitting at desks, with a waist line hinting at the need for a bit more exercise, thinning brown hair, a touch of color in his cheeks, a strong nose and jaw and a general appearance of a hard-headed man.

He has both physical and mental force and he speaks only when he has something to say. That alone marks him as a man apart in the Senate.

Robinson is 52 within a period of two weeks, back in 1913, he was congressman, governor and United States senator. He resigned from the House Jan. 13, 1913, qualified as governor on Jan. 16, and on Jan. 28 was elected to the Senate to fill a vacancy that had developed following his election as governor.

Whether Robinson is to head his party's ticket or not, he will play a leading role in shaping the platform on which the Democratic candidate must stand.

WASHINGTON is "growing up" as a world capital. One by one it is discarding small-town ways and "provincialisms" and putting on the garb and manners of a sophisticated world center.

Latest in this line is the definite drift here toward the adoption of the "Continental Sunday."

Sunday in Washington is no longer a time for mere church-going, or even a day devoted to quiet recreations. It now has a definite place on the social calendar, and teas, musicales and even receptions are regularly scheduled on Sundays. Washington's growing importance as a diplomatic center, and the growth of the foreign colony here are among the chief causes of the change.

The Farmer's Psychology
A recent editorial in The Republican, entitled Concentrated Thought, has much valuable truth in it regarding the psychology that should govern the farmer's actions; but its application in this particular editorial is either intentionally or otherwise—misleading.

"Dr. Conie's" power of mind over matter, is not Dr. Conie's doctrine at all, but has been preached by leading psychologists throughout the civilized world for many years. One day the Associated Press—which is still living in the Dark Ages—interviewed Dr. Conie, and forthwith sent out what "it" thought was "something new"; and as a result every little two-by-four in the country is evaporating "Dr. Conie."

The farmer is not thinking "destructive thought," except for those forces which have been a menace to his business for half a century; and the "gloom" he is spreading is for Board of Trade gamblers, wherever and whoever they may be. As for choking the "loud-mouthed political agitators," this idea is an insult to the intelligence of Rush County farmers; since there is no better way to choke error than to give it publicity. Back of Popes, Presidents, Courts, Congresses and Legislatures is Public Opinion, and back of public opinion is the open forum of free discussion. No man has a copyright on TRUTH, and the open minded man welcomes a well-ordered logical discussion.

The large city daily paper has not yet awakened to the fact that the farmer means business in this new move he has taken. Readers of Mr. Bell's "Reply to Wheat Pool Critics" in the Republican for Jan. 29 were well pleased with his manner of handling his subject. Important, and unanswerable, however, as were his arguments, it would have taken half of what the farmers lost on their wheat crop of 1923 to have gained space for this article in the large city daily. The announcement of the Wheat Pool Organization that appeared in worthy type, in The Republican, as being one of the most important events of the year, got a two-inch item in Ten Point type on the eleventh page of the city dailies. Suppression is the method employed to keep the producer and consumer apart. How much money do you suppose it would have required to have sent out Howard Ewbanks' contribution in the Republican for March 11th to the readers reached by the Associated Press? There are two paragraphs in this article regarding the total loss to the farmers of Rush County on their 1923 wheat crop, that if given proper publicity, would work a revolution in the sales machinery of the nation.

The editorial referred to in the beginning of this discussion goes on to state that the farmer's habit of spreading gloom over his occupation has hurt his credit in the bank. In answer to this last statement, it is

not necessary to state the case in full. What is known as Frozen Credits has hurt the farmer's standing in the bank. There is no better way of defying Frozen Credits than by giving an example: Mr. Farmer goes to his banker for a loan. The banker, holding trust funds, and being amenable to the laws of the state in which he operates, asks—out of a perfect right to do so—what said farmer intends to do with the money he is borrowing. The farmer tells him that he wishes to pay the interest on a previous loan! The farmer's intentions are entirely lawful and he may have "Dr. Conie" down pat, but something in that announcement send an Arctic chill down the banker's spine. THIS THING IS FROZEN CREDIT. The farmer goes on to tell his banker that the only part of his investment that paid six percent or seven percent or eight percent, as the case may be, was "the mortgage"—AND IT HAD TO!

Every Rush County Farmer knows that these things are true, yet he plows and plods on; because he feels that one lost step or one false move would be his undoing forever.

It is almost time for Board of Trade to send out its spring announcement that "Times are Looking Better." This will be followed by a long coo-coo-coo on THIEFT, and after that the farmer will be expected to fairly sweat dollars. There is no objection to thrift of the right kind; but much of our teaching of so called thrift is the sad wail of the lost souls of skintight misers who were dropped out of the Devil's hand-bag on the way to Fiddler's Green, and are now wandering about in the ether surrounding this old globe screeching their platitudes into a sort of spiritual radio for the benefit of those farmers who sold their wheat for 90c per bushel.

American League Race

HENRY L. FARRELL (United Press Sports Editor)

New York, April 11—Just for the reason that the New York Yankees are expected by the majority of the baseball critics to be set for another stroll to the championship, the American League pennant race has the possibility of a tremendous sensation that would develop if the Yankees should not live up to form.

It is more or less accepted if the Giants should falter in the National League one of two contending teams would win the pennant, but in the American League it would become almost an open contest if the Yankees should happen to stumble and fall by the wayside.

On the assumption that baseball is too uncertain to accept the position of the Yankees as unimpeachable, five or six teams stand for the pennant in the American League.

Since 1914, when the Boston Braves upset all calculations in the National League by trailing behind the pack until July and then stepping out and winning the pennant, a critic can give any team a pennant chance without risking his hide before the pistol of an assassin.

Four new managers have been appointed in the American League since the season closed last fall, one team has been completely reorganized, one team has been tremendously strengthened, and one has been improved.

Lee Fohl, with the Boston Red Sox, Frank Chance, with Chicago White Sox; Buck Harris, with the Washington Senators, and George Sisler, with the St. Louis Browns, are the new pilots. Because they have new managers, who may introduce new policies and whose leadership may exert some kind of a new inspiration these clubs cannot be figured on past performances.

The Boston Red Sox have been reorganized from top to bottom with new owners and a new manager. The club has been strengthened by the addition of Steve O'Neil, one of the great catchers; by Wambegans, a fine second baseman; Bobby Veach, slugging outfielder, and by Dudley Lee, a rookie shortstop, who has been hailed as a sensation by veteran baseball scouts.

By the use of substantial cash, Connie Mack has added to the Philadelphia Athletics Strand and Simmons, two highly-touted young outfielders, and Max Bishop, a promising second baseman from the fine Baltimore club. For two years Mack

hasn't needed much to be "up there" and perhaps these three players will be needed "much."

The Cleveland Indians, at a sacrifice, succeeded in getting George Burns back from Boston, a position that has been weak since Doc Johnston's legs went back on him.

St. Louis is to gamble on the success that Manager George Sisler has in his attempt to play first base again. With a Sisler in anything approaching old-time form, the Browns are a pennant contender; without him they are in a battle for the first division.

As it will be observed, the American League clubs, with the exception of the Yankees, are all uncertain quantities. The Yankees are certain only by the exercise of an opinion that a piece of mechanism, almost perfect on a baseball blue-print, will function as such when it is put into action and that here are no worn parts in the machine that are likely to give way under the strain of hard work.

INVITATION TRACK MEET ON SATURDAY

Moscow High School Will be Host for Five Other Teams in Cinder Path Contests

COUNTY MEET A WEEK AWAY

Moscow high school is conducting an invitational track and field meet on the newly constructed Moscow track tomorrow. It is planned to start the meet at one o'clock and run through all of the ten events on the program in the afternoon. The meet should be a splendid practice for the county track meet, coming the following week, and will give an opportunity of sizing up the relative strength of the county teams.

The schools entered in the Moscow meet are Raleigh, Carthage, Manilla, Webb, Waldron and Moscow. The team winning the meet will receive a trophy cup immediately following the events. Raleigh is expected to be especially strong in the field events. Carthage is an unknown factor but they have a large squad of good men to pick from.

Moscow is stronger on the track in the dashes and runs while Manilla, Waldron and Webb should all have teams high in the running. A very closely contested meet is almost assured and a large crowd is anticipated.

TELLS HOW HIS WIFE SUFFERED FOR 3 YEARS

Stomach Trouble And Nervousness Now Gone And Mrs. Jester is Happy and Smiling.

"Yes, sir, the credit for restoring my wife's health goes to Tanlac, and I'm mighty glad to say so, for it does my heart good to see her so cheerful, happy and contented," enthusiastically states O. E. Jester, R. F. D. "O" of P. O. Box 618, Indianapolis, Ind., well-known C. I. & W. Railroad freight claim adjuster.

"My wife suffered from stomach trouble three years and her appetite and strength finally dwindled down to near nothing. The lightest meal caused gas, heartburn and palpitation

and her nerves were so tightly strung, she could neither sleep well or stand any confusion. Dizziness, headaches and biliousness further aggravated her, and she was miserably weak.

"Since Tanlac relieved her ailments so thoroughly, my wife eats, sleeps and feels like a schoolgirl. She has gained weight until she hardly looks like the same person and even goes through a hard day's work at home joyful and smiling."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

SENATE TO GO INTO WHEELER CHARGES

Until Committee is Named, Line of Inquiry to be Followed Can't be Fully Determined

DAUGHERTY PROBE TO GO ON

(By United Press)
Washington, April 10—The senate investigation of charges against Senator Wheeler, Montana, will swing into action immediately after the appointment of the special committee today by Senator Cummins, presiding officer of the senate.

Until the committee has been named the line of inquiry cannot be fully determined but Wheeler's friends said it must be pushed with all possible speed. Any witnesses suggested by Wheeler will be called, it is understood.

Wheeler will ask that John L. Slatery, United States district attorney for Montana, who secured his indictment, and N. T. Lease, former mayor of Great Falls, Mont., and foreman of the grand jury which returned the bill, be called to testify. It is also possible that he will insist that Judge Charles N. Pray be summoned.

Meanwhile the Daugherty investigating committee will conduct a collateral inquiry into Wheeler's charge that he is the victim of a "frame up." Wheeler will continue to serve as "prosecutor" on the committee, Chairman Brookhart said.

PRE-EASTER SERVICES

Pre-Easter services which have been in progress at the Fairview Christian church all week, will culminate Sunday, the last day, with an all day meeting and a pitch-in dinner at the Fairview school building Sunday noon. The regular pastor, the Rev. W. H. Law, who has been in charge will preach twice Sunday, and there will be special musical numbers.

There will be a stated meeting of Rushville council No. 41 at the Masonic temple Monday evening followed by work in Chapter degrees.

My dear friend,

An elderly lady whom I knew since I was a kid paid me what she thought was a last visit. Upon being told of my plight she immediately mentioned your product for such an ailment. Maybe some of us didn't look upon her views very lightly... it was to laugh!
My dear friend, I am still laughing... not at your product, but because I am able to. I am telling you and the world at large, "Eat Kellogg's Krumbled Bran!" It should be called "Constipation's worst enemy." I owe you my heartfelt gratitude. I can talk, and whenever the opportunity presents itself, my mouth is always full of bran—Kellogg's Krumbled. Wishing you countless days of progress, I am

Fake Stock Salesmen Arouse Ire of Citizens

Clinton, Ind., April 11—Renewal of activity of stock salesmen near here has aroused the indignation of many citizens.

The salesmen, according to some estimates, have "bled" the people in this vicinity for about a million dollars for investments which later turned out to be not quite all the salesmen pictured them to be.

"This town and the surrounding towns have certainly been bled plenty," declared Anton Marietta. "It's a crime for these fellows to be trying to take more money out of this community under present conditions."

Secret of Happiness

The greatest menace on earth to happiness is the ill health with which so many women are afflicted. The young woman is subject to pain and irregularities, the mother to the tortures of displacements with consequent pains, aches and nervousness, the middle aged woman to the uncomfortable conditions caused by this critical age. The one remedy to control these conditions and restore the system to a normal healthy condition is Lydia E. Pinkham's Vegetable Compound, which for fifty years has been restoring sick and ailing women to health and happiness.

FLINGS GAUNTLET FOR "HOME RULE"

John J. Brown Willing to Debate Publicly With Candidates Question of Home Rule for Taxation

FAKER IN "HOME RULE"

Thinks it About Time Distortion of Truth by Candidates be Stopped in Attacks on Tax Board

(By United Press)

Indianapolis, Ind., April 11—Declaring the public is being betrayed by gubernatorial candidates of both parties who are seeking to confuse the popular mind for the sake of votes.

John J. Brown, chairman of the State board of tax commissioners today flung down the gauntlet to candidates championing "home rule" in taxation, and challenged any or all of them to public debate publicly on the question.

"I would be willing to debate publicly with any candidate the question of home rule for taxation," Brown said. "Either party—no difference to me."

"It's about time however, that the distortion of the truth by candidates be stopped," he declared with heat. "Some of them are attacking the State tax board and advocating a change to what they call 'home rule.' There is a faker in the 'home rule' which they so luringly speak of. If the public ever had home rule in taxation matters they have it now."

"The effect of home rule as advocated by some of the seekers for public office means the taking away from the tax-payers the right of appeal they now have. This would prevent any control over local taxing and money spending authorities."

"Why, we can't alter a bond issue, change a levy or even function unless taxpayers of the local unit appeal the matter to the board. Only then, upon their petition, does the board acquire jurisdiction over local tax matters."

"What protection would local people have without some right of appeal? Unscrupulous officials would plunder the public funds graft and corruption would abound, and the public debt would soar to greater heights."

Mrs. Harding For Governor

Columbus, Ohio, April 11—Mrs. Warren G. Harding for governor of Ohio.

This proposal was made today by R. A. Mack, Galipolis politician who declared the widow of the late president could carry Ohio overwhelmingly in the fall election if she were nominated on the Republican ticket.

SHORTAGE FEARED IN TEACHING RANKS

Organized Effort is Being Made to Recruit Prospects to Conform With 1923 Laws

A COLLEGE COURSE NEEDED

Indianapolis, Ind., April 11—This is teacher recruiting week in Indiana.

The State department of public instruction, anticipating a serious shortage of school teachers unless an organized effort is made to get more of them, has designated this week for the recruiting of the ranks to normal proportions.

The Indianapolis Chamber of Commerce, the Indiana State Teachers' association and Indiana university are cooperating in the movement.

The 1923 teachers' license law is one of the causes for the anticipated shortage, officials said.

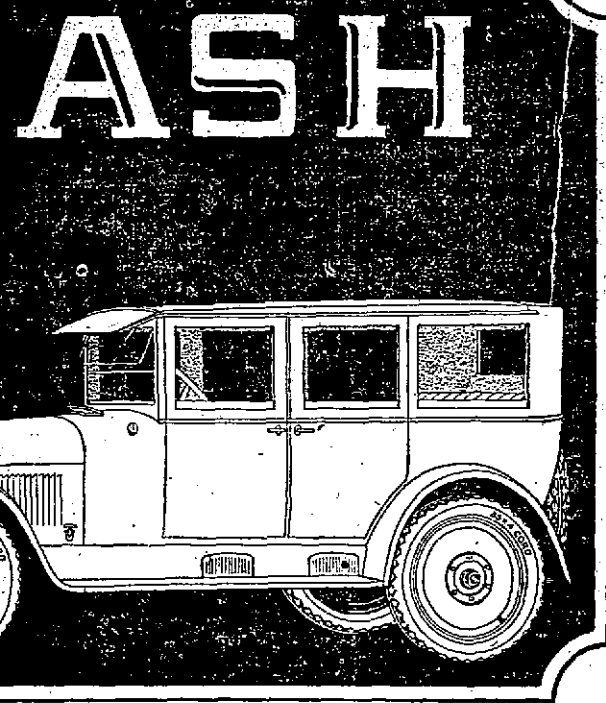

High school teachers must have three years of previous training under the 1923 law, instead of the former standard of two years, officials pointed out.

From 4,000 to 5,000 teachers in Indiana are without licenses. The total number of teachers is approximately 22,000. More stringent requirements for licenses is cited for the dropping off in the number of high school graduates entering the teaching profession.

WALK-OVER'S FIFTIETH ANNIVERSARY

Walk-Over

It is but natural that Walk-Over styles should be more varied than ever this Fiftieth Anniversary Year. The newest of the new, flashed by cable and radio from Paris, is ready for you here, with all the fine fit and perfection of detail that half a century of quality has made a part of all Walk-Over shoes.

The high cost of low-priced shoes!

How much can you save when you buy a pair of shoes of less than Walk-Over quality? One dollar? Two? Just the cost of one of the many pairs of silk stockings that ill-fitting shoes will make "run" to ruin. Put it this way: Walk-Over fit will save you enough in stocking wear to pay for the shoes. The extra comfort, the little better style, cost you nothing.

Why Girls

Are Not Prettier — why women grow old
BY EDNA WALLACE HOPPER

I was a plain girl, but I made myself a famous beauty. I have reached a grandmother's age, but I keep my youthful look. Countless young girls envy my hair and my complexion.

No ordinary beauty help ever did, or ever will, bring such results to women. I searched the world for the best helps in existence. I spent a fortune to obtain them. To them I owe all that beauty and perennial youth have meant in my career.

Now I have placed those identical helps at your call. To girls they mean multiplied beauty, to women continued youth. I urge you to let them bring to you what they brought to me.

The Great Mistakes

Millions of women seeking beauty and youth use unscientific helps. Now I bring you the best helps in existence.

Clay is a beauty essential. No girl can look her best without it, no woman keep her youth. But not the crude and muddy clays so many still employ. A super-clay has been perfected by 20 years of scientific study. It is white, refined and dainty. It is ten times more effective than the ordinary clays.

I call this my White Youth Clay. Many women, with one use, seem to drop ten years. It brings a rosy clear complexion. It removes the causes of blackheads and blemishes. It firms the skin, combats all lines and wrinkles. My White Youth Clay will amaze and delight you. I urge you to see what it does. The cost is 50 cents and \$1.

Scientific Creams

Women use creams which no great expert in the world could sanction. I made a world-wide search to get the best creams in existence.

One is my Youth Cream—a cold

cream. It contains products of both lemon and strawberry. Also all the best that science knows to soften, feed and foster the skin texture.

I use it after the clay. Also as a night cream, also daytimes as a powder base. Never is my skin without it. I wait you to learn what Youth Cream means to you. It costs only 60 cents.

My Facial Youth is a liquid cleanser which I found in France. Great beauty experts the world over now employ it. It contains no animal, no vegetable fat. The skin cannot absorb it. But it cleans to the depths and removes from the skin all the dirt and refuse which nothing else can reach.

You will know for the first time what a clean skin means when you apply my Facial Youth. The cost is 75 cents.

Hair You Marvel At

Millions marvel at my luxuriant hair. It is thick and lustrous—finer far than 40 years ago. Falling hair, dandruff and gray hair have never come to me.

This is also due to France. She perfected my Hair Youth. I apply it daily with an eye dropper, directly to the scalp. It does not muss the hair. It cleans the scalp, stimulates and fertilizes. Then the hair roots flourish and bring the results I show.

If you wish like hair, use this method—the best that science knows. My Hair Youth costs 50 cents and \$1 with eye dropper.

All druggists and toilet counters supply these preparations. Nothing else in all the world can bring you like results. Go try them. Let them bring you what they brought to me. Edna Wallace Hopper, 536 Lake Shore Drive, Chicago.

IN BRUTAL CHILD MURDER

Sophie Cupek, 14 (shown at lower left, started out to deliver milk in the neighborhood of Chicopee, Mass., Stanley Zalesky, 17, is alleged to have enticed her into his home and, later, to have clubbed her to death in the cellar, wrapped her body in a carpet and dumped it in the Connecticut river. Police say he has signed a confession. Above police are shown dragging the river for the body.

HEARING TO BEGIN ON MUSCLE SHOALS

Senate Agriculture Committee Declines to Start Sessions to Consider Legislation April 18

FORD PLAN IS IN DOUBT

Washington April 11—Voting down the supporters of the Ford offer who sought immediate action, the senate agriculture committee has decided to begin hearings on Muscle Shoals legislation on April 16.

Senator Harrison, Democrat, Mississippi, in an effort to rush through the proposed Ford lease, attempted to pledge the committee to complete its hearings April 23, but he was voted down.

The committee's action came as a complete surprise and was regarded as indicating the Ford offer may not be reported out.

Western progressive Republicans who had been counted upon to vote for Ford because of the cheap farm fertilizer agreement, deserted the cause almost to a man. Senator Ladd North Dakota, was the only Republican to support Harrison's move, while one Democrat—Ransdell, Louisiana—voted against it.

PROPECTS GOOD FOR HONEY FLOW

Larger Clover Crop is Expected and Bees Having Wintered in Fine Shape, are Cause for Hopes

COLONY EXAMINATION URGED

About Thirty Pounds of Diluted Honey Nectar Should be in Each Hive For Proper Nurture

Indianapolis, Ind., April 11—Never before have bee-keepers in Indiana been so enthusiastic over prospects for a large honey flow, C. O. Yost, State apiarist, declared today.

Their hope has a real foundation in present conditions of the bees and the clover crop, Yost said. A large clover crop is expected, and bees have wintered in fine shape.

Preparations should be made immediately by all owners of colonies to insure a maximum harvest, he said.

At this time, Yost said, examination of all colonies should be made to see that the bees have plenty of food. About 25 to 30 pounds of diluted honey nectar or sugar syrup should be in each hive for proper nurture of the bees.

Where the following conditions are found to prevail, the owner may be sure of a good profit, crop conditions being normal:

- 1—Free from disease
- 2—First class queen.
- 3—From 15,000 to 20,000 young bees that haven't worn out their energy.
- 4—Abundance of stores to take care of bees through winter and for brood rearing in spring.
- 5—Winter protection in colony: Wrapping or packing.

"Practically all spring management could be eliminated by fall care," Yost said.

A new discovery for either sort of foul brood is "alcohol formalin". Yost said. Full directions for use of the formalin may be obtained by writing to C. O. Yost, Department of Conservation, Statehouse, Indianapolis.

BEGIN TO SOW OATS

Bloomington, Ind., April 11—Monroe county farmers are beginning to sow oats. With warmer weather here, the ground is beginning to dry up to such an extent that a number of farmers have started to put in their crop. Acreage to be sown this year will probably be about the same as last year, 5,818 acres, according to C. W. Hastings, president of the county farm bureau.

INTERURBAN-HITS MACHINE

Elkhart, Ind., April 10—Mrs. Milo Myers was in a serious condition in a hospital here today, with injuries received in an auto accident in which her husband was killed late yesterday. Their auto was struck and demolished by an interurban car.

"THERE are thousands of you men and women, just like I once was—slaves to rheumatism, muscle pains, joint pains, and horrible stiffness. I had the wrong idea about rheumatism for years. I didn't realize that increasing blood-cells had the effect of completely knocking out rheumatic impurities from the system. That is why I began using S. S. S. "Shifting Sands"
When asked to explain what he meant by shifting sands, Mr. Granville said: "Every few hours the sand shifted and we would no more than get a scene photographed than the entire locale would be blown away."
This is perhaps where Mr. Granville got the title for the picture he brought to America. He has called it "Shifting Sands," a real story of the Libyan Desert with real Arabs, shicks and plenty of sand. The Castle theatre will show this production for the first time today and continuing Friday.

Pola Negri at Princess
Nothing shadowy about the reception accorded Pola Negri's Paramount picture, "Shadows of Paris," a Herbert Brenon production, which was shown for the first time at the Princess theatre last night and will be shown again today.

It's a story by the French authors Andre Picard and Francis Carco. Picard, it will be remembered, also wrote "Kiki." Miss Negri has the role of Claire, leader of a band of Apaches. She marries a prominent French diplomat, using her newly acquired social position to advantage by betraying her wealthy friends into the hands of her underworld associates. She often visits her old haunts and during one of these trips is recognized, her husband being informed. He continues alone in silence for some time, however, and when Claire finally does confess, he tells her that he has been aware of it all the time and was just waiting for the confession from her own lips, which he knew was sure to come.

Charles de Roche is cast as Fernand, Claire's Apache lover, who is killed when discovered alone with Claire in her rooms. Humbly Gordon plays Raoul, Claire's husband. Adolphe Menjou is the secretary, who betrays Fernand to Raoul.

Mumie—Movie cameras will record the progress of the search when kiddies start their annual Easter egg hunt here.
